

Forklift Electrical Parts

Electrical Parts for Forklifts - Forklifts as well as various forklifts could have specific labels used in some hazardous locations. The label denotes that this particular model of forklift meets the minimum standards of ANSI/UL 553 utilized for electric lift trucks or ANSI/UL 558 for internal combustion engine forklifts.

The use for labels utilized for lift lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Areas or Use, Maintenance and Operation, and Type Designations. Ask your local insurance carrier and Fire Marshall for additional information about the permitted uses of industrial powered trucks in your application.

If the certain forklift satisfies the outlined standards, labels may be put. A labeled lift truck would show the type of designation located on the nameplate and will have a properly corresponding label put.
